

Village of Sherman Tree Beautification Program

The Tree Beautification Committee planting project of Red Sunset Maple trees on streets leading into the Village is in full swing! Tree planting on Park Street has been completed.

The Village's next planting zones will be:

- Osborne/Franklin Street
- Route 430 West entering Village, continuing onto Route 76 North

Wonderful News!

- ✓ You still have time to purchase trees, either for your yard or as a donation to the Village for fall planting that will resume in September through October 1, 2021.
- ✓ With each tree purchased, the Village will match it by purchasing a Red Sunset Maple for planting in one of the designated zones.
- ✓ The Village will deliver and plant your trees with the help of volunteers. The Village will help maintain these new plantings for the first year.

Please complete this form and return it to the Village of Sherman with payment in full either by mail (PO Box 629) or the office drop box by August 31st. Any questions, please call 716-761-6781.
